

Woodland Bulbs

We supply a range of native bulbs that are suitable for woodland and semi-shaded areas, primarily Bluebells, Wood Anemone and Wild Garlic (Ramsons).

Advantages of bulbs include:

- High reliability
- Easy to plant and manage
- Long lifespan
- Flowering effect – subtle colours in blue, cream, etc. to blend with woodland areas
- Flowering period – throughout spring
- Attractive to wildlife, enhancing biodiversity

For more information on pricing and ordering one of the above mixes please [Request a catalogue](#).
